

# Managed SSL Service

The best way to manage multiple SSL Certificates

## Managed SSL Service

GlobalSign's Managed SSL Service provides the ability to quickly, simply, and conveniently manage GlobalSign's range of leading SSL Certificates through a web based management interface. The Managed SSL platform was designed around enterprise-specific security requirements, helping organizations significantly reduce the budget, time and management costs associated with using SSL. With one time vetting, administrators can issue SSL Certificates on demand 24/7/365.

### Web-based Platform for easy Certificate Management including:

- Complete certificate lifecycle
- Control of user privileges
- Comprehensive reporting, billing and accounting functions
- Support for multiple companies under one umbrella account

### Welcome to Your Managed SSL Account

#### Your Pre-vetted Domains and Certificate Profiles:

Tip: Domains vetted by an Extended Validation (EV) level can obtain either OV or EV Certificate types during application.

Domain	Certificate Profile	Vetting Level	Actions
demo01.demomainstest.jp	GlobalSign Corp <a href="#">Edit Profile</a>	OV	<a href="#">Order Certificate</a>
demo02.demomainstest.jp	GlobalSign Corp <a href="#">Edit Profile</a>	OV	<a href="#">Order Certificate</a>
demo03.demomainstest.jp	GlobalSign Corp <a href="#">Edit Profile</a>	OV	<a href="#">Order Certificate</a>
demo04.demomainstest.jp	GlobalSign Corp <a href="#">Edit Profile</a>	OV	<a href="#">Order Certificate</a>

#### Upcoming Renewals:

Domain	Company Name	Issue Date	Expiration Date	Days Left	Actions
demo01.demomainstest.jp	gc partnet co.jp	01/03/2011	08/30/2011	45	<a href="#">Renew Now</a>

The MSSL platform allows you to log in and immediately view Certificate status. The intuitive interface gives single click access to ordering, renewing, and other common certificate actions, such as reissuing, downloading certificate files, adding extra domains, and more.

## New MSSL v2.0 Features

### Centralized Management

Register multiple companies, branches, or departments under one account by creating "profiles". Ideal for umbrella entities needing to manage Certificates for several subgroups, this option allows all activity to be monitored, managed and centralized from one account.

### Customized Reporting

Reports can be run and exported to XLS or CSV on activities including application times, issuance times, spend, upcoming renewals, and more. Activity reports can even be run at the user level, ideal for maintaining security and meeting compliance requirements.

## Multiple Application Methods

**GlobalSign Certificate Center** - a powerful web-based SaaS platform to manage all aspects of the Certificate lifecycle.

Domain	Profile	Status	Actions	Order	Order Level	Profile Owner
01 - London (OV Test)	demo01.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>	Waiting in Process		Add New Domain <a href="#">Edit Profile</a>
02 - New Hampshire	demo02.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>			
03 - United States - US	demo03.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>			
04 - London (EV Test)	demo04.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>	Available		Add New Domain <a href="#">Edit Profile</a> <a href="#">Add New Public Order Page</a>
05 - New Hampshire	demo05.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>			
06 - United States - US	demo06.demomainstest.jp	Waiting in Process	<a href="#">Cancel</a> <a href="#">View Certificate</a>			

**Public Ordering Page** - when activated, the Public Ordering Page allows organizations to share a hosted co-branded application form. Anybody can place an order for the Certificate via the link and the administrator is alerted to approve new applications.

**Public Ordering Page**

The Public Ordering Page (POP) allows public applications for Certificates through your account. (It cannot offer departments / individuals / groups). The POP is hosted by GlobalSign - when addresses are given a link URL.

**Allow applications via Public Ordering Page**

Note: The Administrator must approve applications before Certificates are issued.

Use POP URL:

**API** - allows full integration of other systems and workflows.

## Granular User Permissions

Define user roles and privileges for users within your organization based on specific profiles, or even specific domains within a profile, allowing you to control which staff members can apply for, approve, renew, and revoke certificates.

## Save Cost & Flexible Payment Options

Reduce SSL costs significantly over purchasing individual retail Certificates or using a competing SSL solution.

Place deposits, opt for Pay as you Go, or purchase true "unlimited" SSL issuance for your entire organization. Managed SSL also allows an account deposit to be used on SSL and other GlobalSign Digital Certificate solutions. A deposit with GlobalSign does not expire.
